# THE
BBC
DIFFERENCE.

Hot since 1967, BBC Industries has produced the best infrared dryer element on the market. We manufacture elements perfectly suited for the screen print and imaging industries. Our tight wire construction, longevity, and selection separate us from the competition.

Afford-A-Flash® models compatable with most **BLACK FLASH** options. For acceptance of the HC-120 Heat Controller (not included), you will need the HCB-01 Bracket.

FLASH STAND OPTIONS

Space Saver™

Sometimes, the legs of the Black Flash stand may tend to get in the way. If you feel like the legs of your stand stick out a little farther into the aisle than you're comfortable with, check out the Space Saver! This kit swaps out two of the standard legs for two legs that are much shorter. The kit will also include a rotation limiter in order to keep the flash head from tipping over on the two shorter legs.

AIR FLASH®

A combined infrared and pass-through air dryer, our Air Flash Dryer is ideal for flashing or curing water-based or plastisol inks. Holes spaced evenly across the heater face make for a remarkably level spread of forced air. A blower in the rear of the dryer provides a steady stream of air through to the t-shirt.

FLASH STAND OPTIONS

Automatic Rotators

Rotate your flash on and off the platen with these two options. The Flash-A-Matic, which quickly transforms any Black Flash dryer into a foot-pedal operated automatic. Or the Flash Pneumatic, a less expensive option that runs on compressed air. This unit is available in either an automatic, with a dwell timer, or a manual foot-pedal operated rotater.

Flash-A-Matic

Flash Pneumatic

Platen Guard™

The Platen GuardTM is an ideal addition to any BBC Flash dryer. Featuring a Photo Eye which detects when your flash is in the cure position. Once curing is detected the Platen GuardTM starts its 60 second countdown. If your flash is still in the curing position after 60 seconds, the Platen GuardTM steps in and shuts down power to your flash while sounding an audible alarm to alert the user. In doing this, the Platen GuardTM lives up to its name by keeping your platens safe and usable.

Auto Plateau Technology

BBC's proprietary technology introduces your garment to a dual stage curing environment. Meaning, your garment reaches its cure temperature early in the chamber and then plateaus. This is especially important when printing with multiple colors or with an underbase, allowing the heat to penetrate all layers of ink.

STAGE ❶ – BRING TO CURE TEMP   STAGE ❷ – MAINTAIN CURE TEMP

AEOLUS®

The Aeolus is the next generation of Forced Air Conveyor Dryer. Using BBC's proprietary heating elements the Aeolus dyer can cure it all. From plastisol to pretreat, and everything in between, the Aeolus out shines the competition. The Aeolus' revolutionary design uses banks of angled heating panels running along the edge of the PTFE coated belt to all but eliminate edge loss. Its unique design, partnered with BBC's proprietary watt density algorithm, provides the Aeolus with the most even edge-to-edge cure in its class.

ALPHA

ALPHA

ALPHA

Ink Setter

LEGACY
POWERED BY
BBC

The BBC Alpha Press is as its name implies, the beginning. This starter press is a great option to get your screenprint business off the ground, as a secondary press or even for Onsite Printing. Its low cost, lightweight design and customazation makes it ideal for these applications. Tight on space? The BBC Alpha mounts on top of the BBC Little Buddy to cure your space or mobility requirments.

NYLON BOLT REGISTRATION

Keeping cost low but accuracy high the BBC Alpha comes standard with Nylon bolt registration. The Alpha's precision cut steel arms idex between two large nylon bolts yielding consistent and accurate printing. Short runs or long the Alpha is built to get the job done.

MICRO REGISTRATION

Three adjuster barrels allow you to position your screens in perfect registration after the screen is clapped. Side to side, in and out, and rotationaly movement is easy and fast. Once located just secure the microlok knobs top prevent the screen from any further movement.

QUICK RELEASE PLATEN

The Alpha comes standard with a quick release platen system. Easily change platen sizes to meet each jobs specifications.

3 MODELS 24 CONFIGURATIONS

BENCH MOUNT

PART NUMBER	BBC23010
COLORS/STATIONS	4/1 MAX
MAX SCREEN WIDTH	19"
DIMENSION - DIA x HGT	84" x 51"

COLORS/STATIONS	6/4 MAX
MAX SCREEN WIDTH	19"
DIMENSION - DIA x HGT	84" x 51"

This model is customizable from 1 color 1 station up to 6 color 6 station. Ask your sales representative for details on all models and secifications.

TInk Setter

Introducing the BBC Ink Setter. The Ink Setter's rugged design, precision registration and ease of use has taken the mid-level press market to a new level. The Ink Setter has top end press components and precision with 2 sets of tapered bearings and a machined center shaft. The Ink Setter keeps everything in perfect aligment for the life of the machine. It also includes roller bearing registration and upgradable micros making the Ink Setter the last machine you will ever print on.

ROLLER BEARING REGISTRATION

An upgrade to nylon bolt registration, the roller bearing system provides long lasting precision registration. BBC's tongue and groove style provides minimal wear and adjustments, offering perfect registration for the life of the machine.

LINKED MICRO REGISTRATION

Three adjuster barrels allow you to position your screens in perfect registration after the screen is clamped. Side to side, in and out, and rotationaly movement is easy and fast. Once located just secure the microlok knobs top prevent the scren from any further movement.

NON-LINKED MICRO REGISTRATION

Gone are the days of dealing with skewing screens when dialing in registration. The BBC Legacy gives you true left and right, or in and out motion to drastically shorten setup and increase efficiency and profitablity. The spring loaded micros have no lash and you will never go back.

PART NUMBER	BBC22080
COLORS/STATIONS	4/4

PART NUMBER	BBC22100
COLORS/STATIONS	6/6
MAX SCREEN WIDTH	24"
DIMENSION - DIA x HGT	90" x 48"

This model is customizable from 1 color 1 station up to 6 color 6 station. Ask your sales representative for details on all models and secifications.

With features like aluminum platens, side clamps and upgraded spring loaded micros you can customize your Ink Setter to fit your specfcations. Do you have an auto? Rest assured the Ink Setter can be equiped with our propriatary platen adapter to fit most automatic platens. Is precision important? Out of the Box the BBC Ink Setter is nearly perfectly in Plane from palten to platen and does not require shimming like lesser machines in its class. Want more? That precision will remain for the life of your machine. With a welded steel base, precision machined shaft and heavy duty print and screen arms, the BBC Ink Setter is built to last.

PRECISION WELDED STEEL STRUCTURE

The Ink Setter is manufactured using laser cut US steel and a solid machined center shaft. These high end materials and processes allows for extremely tight tolerances creating a lifetime of precision printing and stability.

SIDE CLAMPS

For a larger screen capacity and flexibility, BBC offers side clamps. For auto or round frames the side clamps provide a simple solution.

UNIVERSAL QUICK RELEASE PLATEN

The Ink Setter comes standard with a quick release platen system. Easily change platen sizes to meet each jobs specifications.

Add our universal quick release platen adapter to increase the compatibility of your platens across your press brands.

LEGACY
POWERED BY BBC

## REDEFINING —THE— INDUSTRY STANDARD

DUAL GATE REGISTRATION

The BBC Legacy employs the use of Dual Gate registration. The Only press in the industry to use this 2 point registration system which is why it is the only press in the industry that will never get sloppy with age. 2 Point registration system, now that is a game changer.

FLOATING PRINT HEAD

The BBC Legacy is a true "All Arms Down Machine." Other machines claim this feature but get sloppy after this feature is used due to the lack of precision that this feature requires. Enter the BBC floating Print head. This features disengages the print head from the center of the machine and automatically centers the head on each print arm perfectly, everytime. The floating print head also allows for multiple printers at once without effecting each others prints as the print head is disengaged and not ecceted by movement of other print heads.

NON-LINKED MICRO REGISTRATION

Gone are the days of dealing with skewing screens when dialing in registration. The Legacy's non linked micro registration gives you true left and right, or in and out motion to drastically shorten setup and increase efficiency and profitability. The spring loaded micros have no lash and you will never go back.

With its revolutionary floating print head design, unrivaled precision, and rugged construction, The BBC Legacy is undoubtably the world's best and most profitable manual screen printing press. Whether you choose a a 4 color or 10 color, the Legacy will blow you away with its effortless rotation of both the print heads and platen arms. Utilizing 2 sets of ultra-industrial tapered baring's, lathe turned center shaft and heavy wall aluminum platen arms the Legacy is built for a lifetime of printing. Want efficiency? Its non-linked micros will make setting up your next job a breeze and will eliminate the headache of skewing images you've experienced using other brands traditional micro systems. With the Legacy you get true left or right, in or out movement drastically cutting setup time and increasing profitability. Want flexibility? Easily change Platen sizes or type with the Legacy's quick release system. Have an automatic press? Simply add the Legacy Platen adapter and begin using platens from many popular automatic presses. Join the revolution and print your Legacy.

PRECISION WELDED STEEL STRUCTURE

The Legacy is manufactured using a combination of laser cut steel and a solid machined center shaft. The Legacy uses extruded aluminum arms to eliminate operator fatigue without sacrificing quality or strength. These high end materials and processes allows for extremely tight tolerances creating a lifetime of precision printing and stability.

SIDE CLAMPS

For a larger screen capacity and flexibility, BBC offers side clamps. For auto or round frames the side clamps provide a simple solution.

UNIVERSAL QUICK RELEASE PLATEN

The legacy comes standard with a quick release platen system. Easily change platen sizes to meet each jobs specifications.

Add our universal quick release platen adapter to increase the compatibility of your platens across your press brands.

Digi-Dri™

Wide Format Digital Printing has advanced to where the printers can apply ink faster than it can dry in open air. The wide variety of inks and medias available for different applications also increase the need for additional drying. This unique and first of a kind BBC portable infrared dryer will conveniently roll up to your printer and gently dry the ink to a full cure. Thousands of printers, around the world, are using the Digi Dri for print-to-cut, laminating immediately or using their take up reel without compromising the print. No more wasted time and space waiting for prints to outgas for hours. Print up to 860 ft²/hr with this scalable system.
