Ink Setter

Introducing the BBC Ink Setter. The Ink Setter's rugged design, precision registration and ease of use has taken the mid-level press market to a new level. The Ink Setter has top end press components and precision with 2 sets of tapered bearings and a machined center shaft. The Ink Setter keeps everything in perfect alignment for the life of the machine. It also includes roller bearing registration and upgradable micros making the Ink Setter the last machine you will ever print on. With features like aluminum platens, side clamps and upgraded spring loaded micros you can customize your Ink Setter to fit your specifications. Do you have an auto? Rest assured the Ink Setter can be equipped with our proprietary platen adapter to fit most automatic platens. Is precision important? Out of the Box the BBC Ink Setter is nearly perfectly in Plane from platen to platen and does not require shimming like lesser machines in its class. Want more? That precision will remain for the life of your machine. With a welded steel base, precision machined shaft and heavy duty print and screen arms, the BBC Ink Setter is built to last.
