AUTO-FLASH®

Our Auto-Flash™ heater, with adjustable bracket, fits neatly into today's automatic presses*. Each model may be inserted at any print head. The bracket will fit easily onto the floodbar and will shuttle in/out over the platen as the floodbar moves. Lightweight, these units are gentle on your press and easily moved. Every unit has a built in heat control with leveling and height adjustments. Contact us for more details.

MB SERIES

Take your shop or live printing operation to the next level. The BBC MB Table Top Series uses proprietary, highly efficient BBC infrared panels which provide the most even and efficient heat distribution available on the market today. Don't believe us? See for yourself below. The BBC MB Series comes with a true plug & play standard 15A plug so no adaptors or special electrical outlets are required. With edge-to-edge heat coverage, the MB Series cures the largest print images in its class. BBC knows your time is precious and you don't want to waste it fussing with belt tracking issues so the MB Series dryers come standard with the BBC TruTrak belt tracking system. Set it and forget it! As the ONLY electric infrared heat manufacturer in the industry, BBC KNOWS HEAT.

FORCED AIR CONVEYOR

Take control of any ink type with one of our forced air conveyors. Beyond handling plastisol ink, these dryers are perfect for water-based and digital-to-garment inks. Digitally controlled infrared heaters and dry forced air work together to produce an optimal cure.

The Aeolus is the next generation of Forced Air Conveyor Dryer. Using BBC's proprietary heating elements there is nothing that BBC Aeolus dryer can't cure. From plastisol to pretreat, and everything in between, the Aeolus outshines the competition. The Aeolus's revolutionary design uses banks of angled heating panels running along the edge of the PTFE coated belt to all but eliminate edge loss. Its unique design, partnered with BBC's proprietary watt density algorithm, provides the Aeolus with the most even edge-to-edge cure in its class.

Ink Setter

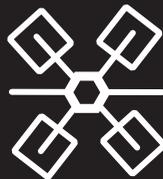

Introducing the BBC Ink Setter. The Ink Setter's rugged design, precision registration and ease of use has taken the mid-level press market to a new level. The Ink Setter has top end press components and precision with 2 sets of tapered bearings and a machined center shaft. The Ink Setter keeps everything in perfect alignment for the life of the machine. It also includes roller bearing registration and upgradable micros making the Ink Setter the last machine you will ever print on. With features like aluminum platens, side clamps and upgraded spring loaded micros you can customize your Ink Setter to fit your specifications. Do you have an auto? Rest assured the Ink Setter can be equipped with our proprietary platen adapter to fit most automatic platens. Is precision important? Out of the Box the BBC Ink Setter is nearly perfectly in Plane from platen to platen and does not require shimming like lesser machines in its class. Want more? That precision will remain for the life of your machine. With a welded steel base, precision machined shaft and heavy duty print and screen arms, the BBC Ink Setter is built to last.

Aluminum Platen Available
Call For price and Availability

With its revolutionary floating print head design, unrivaled precision, and rugged construction, The BBC Legacy is undoubtedly the world's best and most profitable manual screen printing press. Whether you choose a 4 color or 10 color, the Legacy will blow you away with its effortless rotation of both the print heads and platen arms. Utilizing 2 sets of ultra-industrial tapered bearing's, lathe turned center shaft and heavy wall aluminum platen arms the Legacy is built for a lifetime of printing. Want efficiency? Its non-linked micros will make setting up your next job a breeze and will eliminate the headache of skewing images you've experienced using other brands traditional micro systems. With the Legacy you get true left or right, in or out movement drastically cutting setup time and increasing profitability. Want flexibility? Easily change Platen sizes or type with the Legacy's quick release system. Have an automatic press? Simply add the Legacy Platen adapter and begin using platens from many popular automatic presses. Join the revolution and print your Legacy.
